

Index of Transcribed Sermons & Other Articles With a Conservative Mennonite Perspective.
JUNE 2010

Additions since last issue are marked with 

We have endeavoured to place articles and sermons in appropriate categories according to their message aim, they may and do at times overlap as ministers make or reinforce some point or teaching.

The term “Non-Conformity” can be and is sometimes interchanged with the word “Separation” but in this index all items relating to “Separation” relating to the people of God from the world are shown under “Non-Conformity”

The greater majority of the items have been sourced from Conservative Mennonite fellowships and where material has been sourced outside that parameter the utmost care has been taken to ensure that the contents do not go contrary to Conservative Mennonite standards of faith and practise and such items are noted with *R*

The responsibility for individual contents is that of the original speaker or author and we do not necessarily agree with all their views. We strongly recommend that like us you follow the example of the Bereans in Acts 17: 11.

These articles are free of charge but we do request that where possibly your order be processed via E-mail and where normal postage is your preferred method only one copy of each item will be supplied which may be copied without alteration.

Some items were not able to be definitively categorized and are entered under their heading only.
